DARG v1 (TRUGO)

Integrated LED aluminium lighting pole

Model overview

Curved aluminium profile with a decorative body LED line and a separate bracket-mounted functional luminaire. The product image shows a blue LED line and TRUGO branding.

Configuration

Specify the decorative LED colour and signage separately from the luminaire and its optical distribution.

Project requirements

- Mounting height, arm reach and installation method
- Luminaire, photometry and electrical configuration
- Finish, colour and site conditions
- Base plate, anchors and approved drawing

Confirm dimensions, ratings and mounting details for the selected configuration with the export team.
