DARG v3

Aluminium lighting pole with illuminated motif

Model overview

The curved aluminium body combines a decorative LED line with an illuminated motif between the arms. A separate bracket-mounted luminaire provides the functional lighting.

Configuration

Specify the body LED line, illuminated motif and functional luminaire separately.

Project requirements

- Mounting height, arm reach and installation method
- Luminaire, photometry and electrical configuration
- Finish, colour and site conditions
- Base plate, anchors and approved drawing

Confirm dimensions, ratings and mounting details for the selected configuration with the export team.
